

Transport

Which of these carriers needs a USDOT number in order to operate in interstate commerce? (Select all correct answers)

1. A private carrier hauling its own products across state lines in a straight truck with a 26,000-lb GVWR

2. A landscaping company driving a pickup truck (8,500-lb GVWR, no trailer) to job sites in two states

3. A church taking members on an out-of-state trip in a bus designed to carry 20 passengers, including the driver. This trip is free to members, and the church does not receive direct or indirect compensation for this transportation.

4. An interstate carrier transporting a placardable amount of hazardous materials in a cargo van with a 9,000-lb GVWR
